The Russian Economy 2007-02-12

the epic tale of the soviet union's quest to construct a socialist economy was until recently the principal motif of textbooks on the russian economy rosefield's new text offers a more sober recounting of the bolshevik saga stripped bare of socialist romanticism focused equally on the micro and macroeconomics of administrative command planning and russia's post communist market system understanding the soviet economic system and the causes of its failure are central to any student's study of russia's struggle towards a market economy and its prospects for the future new textbook offering a more sober recounting of the bolshevik saga stripped bare of socialist romanticism focuses equally on the micro and macroeconomics of administrative command planning and russia's post communist market system

Lenin's Economic Writings 1989

this book provides a comprehensive survey of soviet economic development from 1917 to 1965 in the context of the pre revolutionary economy in these years the soviet union negotiated the first stages of modern industrialisation and then after the defeat of nazi germany and its allies emerged as one of the two world superpowers this was also the first attempt to construct a planned socialist order these developments resulted in great economic achievements at great human cost using the results of recent russian and western research professor davies discusses the inherent faults and strengths of the system and pays particular attention to the major controversies was the russian revolution doomed to failure from the outset could the mixed economy of the 1920s have led to a democratic socialist economy what was the influence of soviet economic development on the rest of the world

Soviet Economic Development from Lenin to Khrushchev 1998-03-28

in this book anthony heywood reassesses bolshevik attitudes towards economic modernization and foreign economic relations during the early soviet period based on hitherto unused russian and western archives he examines an extraordinary decision made in march 1920 to import vast quantities of railway equipment the book argues that under war communism and the nep railway modernization was vital to a strategy of rapid economic modernization and provides the first detailed case study of the government's import policy following the histories of the principal contracts it analyses soviet foreign trade as a means to tackle domestic economic challenges this book provides readers with a new perspective on soviet economic development and reveals the scale of bolshevik business dealings with the capitalist west immediately after the revolution

Modernising Lenin's Russia 1999-08-19

vladimir lenin created this hugely significant marxist text to explain fully the inevitable flaws and destructive power of capitalism that it would lead unavoidably to imperialism monopolies and colonialism he prophesied that those third world countries used merely as capitalist labour would have no choice but to join the communist revolution in russia great ideas throughout history some books have changed the world they have transformed the way we see ourselves and each other they have inspired debate dissent war and revolution they have enlightened outraged provoked and comforted they have enriched lives and destroyed them now penguin brings you the works of the great thinkers pioneers radicals and visionaries whose ideas shook civilization and helped make us who we are

Imperialism: The Highest Stage of Capitalism 2010-08-26

first published in 1979 political economy and soviet socialism is an integrated selection of papers written over the past 12 years of russian history which offers a unique insight into some important and controversial issues professor nove discusses the ideas of some of the leaders of the russian revolution lenin trotsky and bukharin the political economy of socialism and the problems of the contemporary ussr the author addresses the role of traditional russian ideas in shaping the soviet union's social structure and the conceptual problems involved in defining its ruling stratum whether or not it is a class he also considers the criteria by which it is reasonable to judge soviet reality the performance and prospects of agriculture in communist ruled europe the ability of the eastern bloc to tackle problems of inflation and the obstacles to economic reform looking at the important and original developments of economic thought in the ussr and eastern europe professor nove dissects the ideas of the new leftists concerning the role of market forces under a feasible socialism these papers offer essential reading for students of politics economics and comparative social structure

Conversations with Stalin on Questions of Political Economy 2001

situating gorbachev and perestroika historically and ideologically this book provides a comprehensive analysis of soviet political economy in the context of socialist theory and seven decades of its application in the soviet union a f dowlah challenges the belief that socialism is sternly committed to centralized economic and political structures and claims that socialism contains several theories some more decentralized or democratic others more authoritarian although the contemporary crisis in the socialist economies powerfully challenges the foundations of socialist theory and practice gorbachev up until the coup attempt of august 1991 claimed that perestroika embodied more socialism not less and he was looking within the socialist tradition to solve contemporary soviet problems this work examines gorbachev s claim and evaluates perestroika as a strategy of transition to a new variant of socialism based on thorough inquiry textual evidence and historical facts the study concludes that gorbachev s claims are substantially legitimate and that a democratic version of socialism is possible within the russian socialist tradition it remains to be seen however in light of recent political and economic developments whether this or some more radical set of reforms will emerge in gorbachev s troubled economy

Political Economy and Soviet Socialism (Routledge Revivals) 2013-02-01

first published in 1920 this fascinating treatise by renowned english economist john atkinson hobson looks at the subject of internationalism exploring the moral factors and issues related to it as well as the ramifications of international cooperation in the light of the cessation of the first world war this detailed treatise will appeal to those with an interest in world politics and economics especially that of europe and the aftermath of the great war john atkinson hobson 1858 1940 was an english social scientist and economist most famous for his work on imperialism which notably had an influence on vladimir lenin as well as his theory of underconsumption his early work also questioned the classical theory of rent and predicted the neoclassical marginal productivity theory of distribution other notable works by this author include evolution of modern capitalism 1894 problem of the unemployed 1896 and john ruskin social reformer 1898 many vintage books such as this are becoming increasingly scarce and expensive it is with this in mind that we are republishing this volume now in an affordable modern high quality edition together with an excerpt from imperialism the highest stage of capitalism by v i lenin

The Development of Capitalism in Russia 1967

this book presents a narrative of one of the more interesting utopian experiments in comparative political and economic history the first decade of the soviet experience with socialism 1918 1928 though historical and textual analysis the book s goal is to render this experience intelligible to get at the meaning of the soviet experience with socialism for comparative political economy today the book examines the texts of lenin bukharin and other revolutionaries as well as the interpretations of contemporary historians of the revolution and the writings of more recent interpreters of soviet political and economic history arguing that the first three years of the bolshevik regime 1918 1921 constitute an attempt to carry out the marxian ideal of comprehensive central planning and that the disastrous results which all commentators agree occurred were the inevitable outcome of this marxian ideal coming into conflict with the economic reality of the coordination problem that all economic systems face the book draws clear conclusions and elucidates the air of mystery that often surrounds the subject offering a radical challenge to contemporary comparative political economy at the level of high theory applied research and public policy this book is appropriate for students and scholars interested in marxism economic history political economy and austrian economics

Socialism and the Market: The political economy of Soviet socialism 2000

this is a volume of essays exploring important themes in the economic and social history of russia and the soviet union during the critical period between 1860 and 1930 it covers developments in agriculture industry trade economic theory defence policy and the social impact of revolution the essays are written by well established specialists in russian and soviet economic and social history and are intended as a tribute to the work of the highly esteemed economic historian olga crisp

Lenin, on Socialist Economy 1983

the october russian revolution led by lenin and trotsky swept away landlordism and capitalism and placed the working class in power for the first time it transformed the idea of socialism from theory into practice from this point of view the bolshevik revolution can be considered the greatest event in history the revolution changed the course of world history and the last century has been dominated by its consequences ted grant s book traces the evolution of soviet russia from the bolshevik victory of 1917 through the rise of stalinism and the political counter revolution its emergence as a super power after the second world war and the crisis of stalinism and its eventual collapse the book which was first published in 1997 has been updated and edited in the light of new developments and the subsequent re establishment of capitalism in russia grant based his analysis on that of leon trotsky who first analysed stalinism in his revolution betrayed while the counter revolution has attempted to bury the memory of october the new crisis of world capitalism has led to a revival of interest in marxism and the significance of bolshevism the republication of ted grant s book in this centenary year of the revolution therefore comes at a fitting time

Imperialism 1999

this work traces russia s complex historical development in the last century as well as its recent political troubles and economic misfortunes and its place in the contemporary international system providing up to date information on russian political developments including the elections of 1999 and 2000 robinson assesses the chances of future projects of political and economic reconstruction publisher description

Economic Problems of Socialism in the U.S.S.R. 1952

this 232 page book gives a thorough introduction not only to the basics of marxist political economy but to lenin s explanation of imperialism as well as a discussion of the great depression of the 1930s it is very helpful as an introduction to studying capital

Soviet Political Economy in Transition 1992-03-23

seminar paper from the year 2002 in the subject history europe other countries newer history european unification grade 1 a university of birmingham centre for russian and east european studies course graduate soviet social and economic history 28 entries in the bibliography language english abstract the collapse of the soviet union has been one of the most controversially discussed issues among historians and social scientists throughout the last decade paradoxically the imminent collapse of communism had been predicted frequently by western observers during the early years of the bolshevik rule with the victory of the second world war those voices were muted and the west accomodated with the existence of an obviously stable mighty and economically expanding country 1 the breakdown of communism in 1991 had been anticipated by few contemporary scholars although the majority were aware of the symptoms of a deep crisis in this essay i will argue that in order to better understand the collapse of communism in the soviet union a central role must be given to the economy and its effects on other areas most symptoms of the crisis and the ultimate breakdown of the system can in fact be attributed to the impact of economic failure whereas economic modernization was the motor of success in the early decades the economy became the weakest link of the soviet system in the later period as its structural shortcomings deeply effected other areas as well the first part of this essay is intended to briefly outline the central role the economy played in the development of soviet socialism the second part analyses the far reaching impact of the economic downturn while the third part discusses the limits of reform before drawing a conclusion 2 1 m cox critical reflections on soviet studies in m cox ed rethinking the soviet collapse l pinter 1998 p 27 2 the author is aware that in the given scope of this essay only a minor and not necessarily representative fraction of the debates and works on the colapses of soviet communism can be touched on

The Morals of Economic Internationalism 2019-10-11

imperialism the highest stage of capitalism written by vladimir lenin in 1916 is a summary of lenin s expansion of the economic theories that karl marx established in das kapital it makes an effort to explain how the global market became more significant in the 20th century according to lenin the first world war and colonialism were both results of the globalisation of the capitalist system the german british french and russian empires would eventually clash over the economic exploitation of significant portions of the world while colonising

underdeveloped nations he contends that in the capitalist homeland the business class can buy local politicians labour leaders and the labour aristocracy with the money made from exploiting colonies in order to quell worker uprisings

The Mixed Economy NEP and Its Lot 1984

i trust that this pamphlet will help the reader to understand the fundamental economic question that of the economic essence of imperialism lenin wrote in 1917 for unless this is studied it will be impossible to understand and appraise modern war and modern politics

The Political Economy of Soviet Socialism: the Formative Years, 1918-1928 2013-03-14

the most powerful force in the world economy today is the redefinition of the relationship between state and marketplace a process that goes by the name of privatization though this term is inadequate to express its far reaching changes we are moving from an era in which governments sought to seize and control the commanding heights of the economy to an era in which the idea of free markets is capturing the commanding heights of world economic thinking basic views of how society ought to be organized are undergoing rapid change trillions of dollars are changing hands and so is fundamental political power great new wealth is being created as are huge opportunities and huge risks taking a worldwide perspective including britain where the process began with mrs thatcher europe and the former ussr china latin america and the us the commanding heights shows how a revolution in ideas is transforming the world economy why it is happening how it can go wrong and what it will mean for the global economy going into the twenty first century

Economy and Society in Russia and the Soviet Union, 1860-1930 1992-11-25

the pamphlet here presented to the reader was written in the spring of 1916 in zurich in the conditions in which i was obliged to work there i naturally suffered somewhat from a shortage of french and english literature and from a serious dearth of russian literature however i made use of the principal english work on imperialism the book by j a hobson with all the care that in my opinion work deserves this pamphlet was written with an eye to the tsarist censorship hence i was not only forced to confine myself strictly to an exclusively theoretical specifically economic analysis of facts but to formulate the few necessary observations on politics with extreme caution by hints in an allegorical language in that accursed aesopian language to which tsarism compelled all revolutionaries to have recourse whenever they took up the pen to write a legal work it is painful in these days of liberty to re read the passages of the pamphlet which have been distorted cramped compressed in an iron vice on account of the censor that the period of imperialism is the eve of the socialist revolution that social chauvinism socialism in words chauvinism in deeds is the utter betrayal of socialism complete desertion to the side of the bourgeoisie that this split in the working class movement is bound up with the objective conditions of imperialism etc on these matters i had to speak in a slavish tongue and i must refer the reader who is interested in the subject to the articles i wrote abroad in 1914 17 a new edition of which is soon to appear in order to show the reader in a guise acceptable to the censors how shamelessly untruthful the capitalists and the social chauvinists who have deserted to their side and whom kautsky opposes so inconsistently are on the question of annexations in order to show how shamelessly they screen the annexations of their capitalists i was forced to quote as an example japan the careful reader will easily substitute russia for japan and finland poland courland the ukraine khiva bokhara estonia or other regions peopled by non great russians for korea i trust that this pamphlet will help the reader to understand the fundamental economic question that of the economic essence of imperialism for unless this is studied it will be impossible to understand and appraise modern war and modern politics

The New Economics 1965

the distinction between capitalism from above and capitalism from below is important in the analysis of the agrarian question in poor countries the prussian path and the american path are here examined against existing historical scholarship their unfolding from their earliest roots to the point of final agrarian transition in the nineteenth and twentieth centuries is considered the dialectic between social relations and productive forces mediated as it was by the state is treated and the implications for capitalist industrialisation scrutinised

The Political Economy of Revolution 1981

leninism provides an in depth analysis of the economic and political doctrines of lenin creator of the communist party that came into power in russia in 1917 based upon the author s comprehensive reading of lenin s collected works some 10 million words in russian the study dissects lenin s political economy and shows it to be pseudoscience based on simple arbitrary and unrealistic assumptions according to dovring lenin was a politician not a scientist and his aim was power not truth the work begins by providing a brief sketch of lenin s life and an overview of his career as a writer four substantive chapters analyze lenin s treatment of the peasant problem science the proletariat and democracy closing chapters deal with lenin s personality which is shown to be pathological in its inability to make concessions to intellectual argument and the prevalence of pseudoscience in his doctrines lenin s doctrines became the groundwork of the soviet system and he is responsible for creating its absurdities the subsequent collapse of the soviet system therefore must be seen in this light

Economics of the Transformation Period 1971

2011 reprint of 1939 edition full facsimile of the original edition not reproduced with optical recognition software imperialism the highest stage of capitalism by lenin describes the function of financial capital in generating profits from imperial colonialism as the final stage of capitalist development to ensure greater profits the essay is a synthesis of lenin s modifications and developments of economic theories that karl marx formulated in das kapital lenin s book greatly influenced the core periphery model of global capitalist development as well as world systems theory and dependency theory

Russia: From Revolution To Counter-Revolution 2018-11-12

born in 1879 eugen varga was an immensely prolific writer who would become the most prominent marxist economist in the soviet union stalin s economist this volume contains a wide and representative selection of his works written over a period of almost 40 years

Russia 2003-09-02

imperialism the highest stage of capitalism by vladimir lenin describes the function of financial capital in generating profits from imperialist colonialism as the final stage of capitalist development to ensure greater profits the essay is a synthesis of lenin s modifications and developments of economic theories that karl marx formulated in das kapital 1867 lenin s influential analysis remains highly relevant in comprehending the historical context of the foreign and domestic policy in the united states and other major nations

The Soviet Union 1985

written shortly before his death this work is regarded as soviet leader joseph stalin s political testament far more than just a dry theoretical economic discussion this book provides a fascinating and unique insight into the economic social and political thinking of the man who led the communist juggernaut from 1924 to 1953 directed to internal communist party comrades in response to discussions on the economy of the soviet union this work details stalin s interpretation of the basic economic laws of modern capitalism and socialism the character of economic laws under soviet style socialism commodity production the law of value and the elimination of the antithesis and distinctions between town and country and mental and physical labour finally stalin presents what he predicted would be the deepening crisis of the world capitalist system and the inevitability of wars between capitalist countries while much of stalin s predictions were wholly incorrect parts of his critique of capitalism proved valid and were borne out by developments long after his time a fascinating historical document first published in red china in 1972
