West riding election. The poll for a knight of the shire for the west riding of Yorkshire ... 1848 1849

this book is a collection of detailed studies of recent construction projects that will help all architects learn and expand the possibilities of their own work projects have been selected for their use of innovative techniques and these insights could help overcome problems reduce a project s cost speed up work on site or help with an idea that is hard to achieve each project within the book consists of striking detailed drawings supplemented by color photographs and explanatory text these details are an excellent way to see how others are using new materials and techniques that may be relevant to an architect s own work it can seem daunting for a student or even a qualified architect to see high quality interesting buildings when the project or daily workload is a lot more humdrum this book demystifies construction and spreads knowledge of good practice the author is well known as he has a biweekly feature in building design the uk s most read magazine by architects the projects have been carefully selected from those published and have been adapted and expanded to create a really useful reference 3 dimensional detail drawings demystify innovative construction projects and help to spread knowledge detailed information of 40 innovative projects help architects overcome a multitude of problems they may be facing color photographs and drawings provide inspiration

The Visitation of the County of Yorke 1859

the creative genius behind founder s building at royal holloway university of london arguably the most glorious building in england of the end of the nineteenth century is widely respected and its architectural style is regarded as archetypally victorian yet its architect william henry crossland is little known despite a substantial catalogue of buildings most of which remain standing today bringing crossland out of the shadows this biography explores this mysterious and elusive figure in depth for the first time recently digitised documents and long hidden archival material have thrown a powerful light on crossland which together with the author s first hand knowledge of his buildings offer the reader an unprecedented appreciation and understanding of the man his life

and work as well as his personal and artistic influences which crossland fills a gap in nineteenth century architectural knowledge but it is also the touching story of an ambitious and talented man who is long overdue to be recognised as one of the greats among nineteenth century architects this book is intended for architects architectural historians and anyone who is interested in the built environment nineteenth century history and intriguing personal stories

The Visitation of the Country of Yorke 1859

the actual settlement of the province of maryland in 1634 was undertaken by leonard calvert lord baltimore's second son and the group of 200 adventurers who accompanied him on the ark and the dove in addition to a succinct history of the calvert family and the area in which they flourished in england this work describes the life and times of the 200 passengers their part in the founding and settlement of the colony and the development of the feudal manorial system in addition to a succinct history of the calvert family and the milieu in which they flourished in england the flowering of the maryland palatinate describes the lives and times of the 200 adventurers who participated in the original expedition to maryland their part in the founding and settlement of the colony and the development of colonial maryland's distinctive manorial system the bulk of this volume of course consists of biographical and genealogical sketches of the 200 adventurers each developed in meticulous detail from surviving documents by the famous maryland genealogist harry wright newman from contemporary court records letters and miscellaneous papers mr newman has wrought a definitive history of these early marylanders and has accomplished single handedly for the passengers of the ark and the dove what has taken a legion of researchers to do for the passengers of the mayflower

The Publications of the Surtees Society 2023-04-29

john allen howe's book the geology of building stones written in 1910 was the first major reference work to feature information on the considerable range of building stones which were being used in the uk and which were still being quarried at that time this important and useful publication now reprinted by donhead offers very detailed information on the appearance and qualities of the various types of stone being used at that time including granite sandstones limestones and other lesser known building stones specific to certain geographical areas it also includes a good introduction to the effects of stone decay in particular the problems of pollution frost and organic growth in the breakdown of stone his chapter on testing of stone was very much ahead of its time since nearly a century later britain is only now starting to obtain its first standard tests for building stone in the form of european standards this book will be a valuable source of reference for conservators architects surveyors engineers and anyone seeking to identify stone in old or historic buildings
